## *Veterinary Partners*

It is important for you to ask your veterinarian who they choose for pet cremation services and why, as there are major differences between how we operate compared to the other providers. It is very important to understand these differences and we encourage you to learn more. If your veterinarian chooses not to use Pets at Peace, please know that you have the right to choose who you wish to use. If you wish to utilize our services you or your vet may contact us directly at 585.544.2041 or you may all together choose to use a veterinary hospital that utilizes our services. Please see the list below for those Veterinary Hospitals that utilize our cremation services ([click to visit location's website](#)).
